COLLEGE PRINCIPAL: MR ADAM POTTER

Dear Parents and Carers,

With the introduction of a new Victorian Mathematics Curriculum, we as the EKC Mathematics Team have decided to shift to a new textbook and digital resource, Mathspace, for 2024 onwards in years 7 to 9.

Alongside a new and improved print textbook aligned to the new curriculum, the Mathspace digital platform also has the ability to identify specific skills that students have mastered, what they still need to work on, and what is still to come on their learning journey. Combined with its user-friendly online interface, this is a powerful tool that we believe will be vital in your child's education.

This digital and print package is unable to be placed on the schools booklist produced by Campion, as such you will need to make this purchase through Mathspace's own payment portal. This can be found at the following link:

<http://website.mathspace.co/payments/essendonkeilorcollege>

Mathspace will then deliver your child's print textbook to the school early Term 1, and also provide us with the details for your child to log in and begin using the digital resource.

If you have any concerns or require further clarification, please do not hesitate to get in touch.

Kind regards,

Cory Duker  
Mathematics Learning Specialist
